1 send people out in trucks, with maps, stick the pin in the map
2 where the well is. They need to do it. It needs to be
3 produced to the defense. If they don't have the single GIS
4 coordinate -- what does this stand for, anyway?

5 MR. PARDO: Global Information -- Geographic
6 Information.

7 THE COURT: Information what?

8 MR. AXLINE: Information Service. I think that's the
9 same thing that your nav system uses in your car.

10 THE COURT: Yes. If they don't have that, I guess we
11 have to send people out on the roads and fields. They've got
12 to do it if they want to bring this lawsuit. They hope to
13 recover damages. They've got to be able to put a pin in a map.
14 And they have to do it by July 1. Instead of asking them
15 what's possible, tell them that's what the Court ordered and
16 the Court is not moving this date. And if they want to have a
17 case left at the end of it, they better do it by July 1.

18 In fact, putting it differently, any place there's not
19 a pin on a map is out of a case. That's incentive.

20 MR. AXLINE: Understood, your Honor.

21 THE COURT: Now what, Mr. Pardo?

22 MR. PARDO: Well, thank you, your Honor, for that
23 directive. Is it possible to get the information on a rolling
24 basis as they get it?

25 THE COURT: Why not?
